

AUTOMATIC LETTER OPENER OL 500

The most professional and secure way of opening your incoming mail

## YOUR IDEAL LETTER OPENER FOR MEDIUM AND HIGHER MAIL VOLUMES

Professional, solid, automatic, economic, very quick, reliable, clean and very safe

### Again many letters received?

The employees of various departments are waiting already impatiently for their incoming mail. Opening letters manually means wasting time of the operator and getting the job of inhouse mail distribution just done with a real time delay. The solution is the professional, high performance and fast automatic letter opener OL 500 of HEFTER Systemform. A profitable solution for about 300 envelopes per day and more.

### Advantages of the milling cutter technology

Some arguments:

- The envelope edge is being milled without touching the content; this ensures highest security for your incoming mail!
- Reliable opening of mixed mail thickness; up to 8 mm
- The envelope is being opened on the long side completely
- No need of pre-sorting
- Easy access to the content
- There are no sharp edges
  - that is highest security for your employees!

! Staples in the envelope are no problem for this letter opener!

! This solid machine can open up to 10.000 envelopes per day, without any maintenance!

### Overview of the OL 500

- Big supporting tray with automatic, self adjusting feeding for mails up to C4
- Secure handling of bigger forms and of thick envelopes (up to 8 mm)
- Easy, trouble free handling
- Extremely silent operation
