

N e v e r e n d i n g s t o r y a n d s h o r t s t o r y .

Are you throwing your money away on forms processing?

It's amazing: Many companies spend a great deal of money on computer systems to process data more quickly, but still handle forms manually.

Do you know how long it takes someone to trim, burst and sort 100 four part forms?

You would be surprised how much working time is lost by doing this manually – and you probably don't notice that it's costing you money and reducing productivity.

The V 5000 burster/ decollators combinations can process this volume in just some minutes!

Margin trimming

+ Bursting

+ Decollating

+ Sorting

...in a single process!

Moreover, your employees can spend their time more productively.

In addition it improves the appearance of your forms by trimming the margins cleanly.

The basic model V 5000 with its modern electronic and reliable mechanics offers you quite some service:

- Tractor infeed for accurate paper transport
- Individually selectable margin trimmers combined with the tractors; no adjustment of knives necessary when changing form sizes

- Electronic length setting with 6 standard sizes
- Automatic sorting of multipart forms into up to 4 stacks
- Paper jam control and "Clear-jam" button to remove forms automatically in case of a paper jam without manual support
- Constant speed of 2.500 12"-forms/h
- Mounted on casters for easy relocation.
- Control panel with LED display
- Automatic overflow control for stackers
- Automatic "paper out" control
- Electronic forms selector lock
- Prepared for online connection to a folder

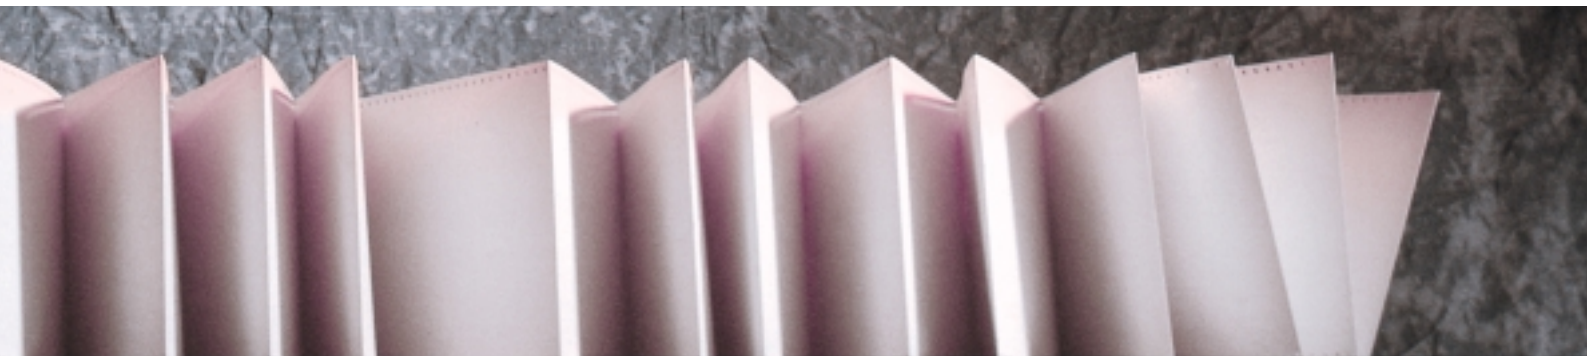

A number of options are available to improve the versatility of your operation. This includes for example a centre slitter, a stacker for continuous forms or the programming of additional form lengths.

More than 16.000 users worldwide rely on this innovative, patented system for bursting and decollating of *HEFTER SYSTEMFORM* and the list of happy customers is growing daily!

Go and see yourself: We would be happy to install a burster/decollator combination for testing purposes at your office.

COLLATOR THAT WON'T COST THE WORLD.

# OVERVIEW OF TECHNICAL FEATURES

Standard Features: BURSTERS / DECOLLATOR COMBINATION	V 5000
Max. form width (only with margin trimming)	375 mm
Min. / max. form length	4" / 12"
Max. form set	5-part
Max. paper weight	300 g/sm
Paper transport by two tractors	●
Combined tractor/margin trimmers with individual operation option	●
Margin trimming	9-25 mm
4 stackers	●
Electronic length setting with standard sizes 0", 4", 6", 8", 8,5", 11", 12"	●
Quick-stop button	-
Paper jam control and "Clear-jam" button	●
Constant speed	2.500 12" forms per hour
Control panel with LED display	●
Illuminated format size selector	●
Electronic format selector	●
Automatic overflow control for stackers	●
Automatic "paper out" control	●
Paper tray and waste basket	●
Electronic paper feeder	-
Prepared for on-line connection to table folder TF 2220	●
Voltage	230 V / 50 Hz
Power	200 W
Noise level emission	67 dbA
Dimensions length x width x height (cm)	115 x 61 x 104
Weight (kg)	47
Colour light grey / grey	●
Mounted on 4 casters	●
CE / UL approved	●
Options:	
On-line connection incl. table folder TF 2220	●
Programming of 3 special form lengths	●
Special installation for 3" forms	●
Special stacker 18"	●
Paper tray for two continuous form sets	●
Centre slitter	●
Margin slitters up to 42 mm	●
