THE IDEAL LETTER OPENER FOR HIGHER MAIL VOLUMES

Professional, solid, automatic, economic, very quick, reliable, clean and very safe

Every day thousands of letters need to be opened in your company quickly and clean.

The **OL 1000** opens your incoming mail automatically, quick and safely: The envelope edge is milled completely on the long edge without touching the content. You won't have any sharp edges.

Your **mixed mail** of **up to 12 mm** each will be opened perfectly and reliably.

The **OL 1000** is suitable for high volumes of incoming mail (up to 36.000 envelopes/h).

Its **compact construction** (letter opener, conveyor stacker and cabinet) allow an **optimal, rational and space saving operation**.

Unpack, plug in and the processing of your incoming mail can start!

- Automatic, self adjusting feeding of the envelopes
- No need of pre-sorting your mail
- Reliable opening of different envelope thickness (up to about 12 mm)
- Highest security for the letters and the user since there are no sharp edges.
- Easy access to the content
- Counter
- Can also be used as a counting machine (without opening any letter)
- Easy, trouble free operation
- Easy adjustment of the cutting depth (from 0 (only counting) up to maximum about 3 mm)
