# THE NEW DIMENSION OF TABLE TOP FOLDERS: THE TRIPLE TF MULTI *plus*

**Extremely silent, precise, fast, variable, compact and user friendly.**

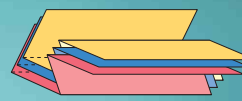

Single fold

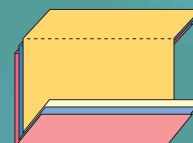

Wrap fold

Z-fold

Double parallel fold

Door fold

## TF MULTI *plus*: Folding out of three feeding stations

The **TF MULTI *plus*** is the only table top folder which can first collect up to three sheets and fold it at once. The three feeding stations can be combined individually. This enables a new dimension of applications.

Small mailings for example consisting of one address document and two enclosures can be collated and folded in one process. The separate daily-mail station can fold up to 5 documents at once, even when they are stitched!

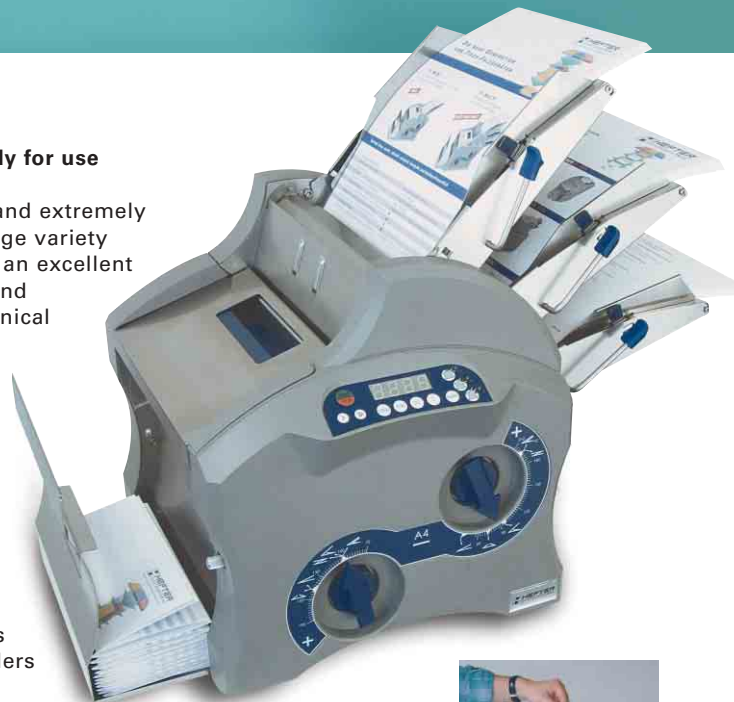

The **TF MULTI *plus*** can process without any adjustment a large variety of different paper weights and surfaces. Just load the paper and go. The variable speed ensures an optimized folding process. The **TF MULTI *plus*** is a solid and reliable folder that can process larger quantities if required. It is extremely silent and is designed to be used in office environments. That is possible due to the folding pockets being located inside the machine.

## Unpack, plug & play: The TF MULTI *plus* is ready for use

That compact, universal and extremely silent folder enables a large variety of folding applications at an excellent price performance ratio and shows extraordinary technical details like

- Quick and fine adjustment of the two folding plates
- A resettable counter
- A pre-counter enables to determine an exact number of documents to fold
- Paper end control
- Removable paper trays
- Exchangeable feed rollers
- Exchangeable separation pads flexibility and ease of use.

**Try for yourself and you will be convinced.**

Display with electronic counter and pre-counter

Feeding station pressure adjustable

Nest fold via separate daily-mail station
